EDUCATION

National University Laguna

Bachelor of Science in Information System
(2018-2022)

Bachelor of Science in Information System (BSIS) is a four-year degree program that deals with the design and implementation of solutions that integrate information technology with business processes.

First Asia Institute of Technology and Humanities

Science, Technology, Engineering and Mathematics (STEM) Strand
Grade 11 & Grade 12
(2016-2018)

The STEM strand in SHS is an inquiry and research-based program. It exposes students to more complex mathematics and science concepts and aims to serve as a foundation for their future college degrees.
